ize and maintain a number of such societies in the Association.

The Young Women's Auxiliary and the children's societies are making steady progress and doing an important work in the way of developing the young people along missionary lines. We commend their work most heartily.

We must utilize and direct the throbbing life and enthusiasm of our young people. We must help them, train them, and make a place for them in the work of our churches, that they may develop into better men and women and become more intelligent and useful members of the churches.

Respectfully submitted,  
Geo. E. Davis for Committee.

The report upon Orphanage was read by T. M. McMichael and discussed by A. T. Jamison. A collection was taken for the Orphanage, amounting to \$9.62. The report was then adopted.

#### Report on Orphanage.

Among the various benevolences to which the churches contribute none makes a more touching appeal to Christian people, than the work of caring for children bereft of their parents. The Blessed Savior used little children as object lessons to teach us our relation to God. We must become as little children to receive the kingdom of God in our hearts; and we must take heed that we do not cause any of these little ones to suffer. Furthermore, we must feed the lambs of the flock and hear the cry of the fatherless.

We can obey the commands of the Savior in regard to the little ones by supporting the institution that cares for the orphans in their tender years, and train them up for usefulness at maturity.

Respectfully submitted,  
T. M. McMichael, for Committee.

First, we would mention the death of Rev. J. P. Bolen since our last meeting. He lived a quiet life on his farm near Spring-
